Re: Docket No. 2005-385-E – Order No. 2006-680 re: requirements of Section 1251

(Net Metering) of the Energy Policy Act of 2005

2/2/2007

Dear Mr. Terreni:

As a member of the Palmetto Electric Coop, I support the federal government's plan for net metering because:

- way
1. Net metering provides a significant financial incentive to change the way we generate electricity.
 2. Net metering lowers our fossil fuel emissions.
 3. Our current reliance on fossil fuels (including coal, petroleum, and natural gas) and on nuclear energy is unsustainable.
 4. Net metering has already been successfully implemented in 40 states and D.C.
 5. IEEE Standard 920 has already been approved

I strongly encourage the PSC to set net metering as the standard for public utilities.

Sincerely,

Dr. F. Taylor
